POVERTY IS BAD but the worst kind of poverty is poverty of the blood; this makes a man "poor indeed," for it takes away his strength, courage and energy; but enrich the blood with its vital element, Iron, by taking the Peruvian Syrup (a protoxide of iron), and you will feel rich and 'as good as anybody.' Try it.

To bouncing boys at play; To stalwart men with cares oppressed And old men silver gray. And among the honored and lasting impres-sions of time, and the crash of revolutions in circumstances, we stand a living monumental memento of the ingenuity and perseverance appertaining to the identity of progression, plying our vocation with the highest style of art and perfection, and aspiring to achieve the highest reward of merit attainable in our humble capacity, and the sentiment of respect and approbation which the presence of superior appliances and es-

tablishment are always wont to inspire.

Always to please We shave with case-Cut and comb with taste the hair : Shampoo the head with soothing care, And color the whiskers black or brown, To suit the people about the town. Then allow me politely request you to stop, And not go past nor from around our shop. To get shaved on the basis of ability-nor as ome have done for our use of the ballot for principle—sacred and right—nor under the common secret and invidious guise of enmity to complex ion ; for the cut of a man's coat, or the color of his skin, ought not to affect his usefulness nor his qualifications. demand, to give the proof to all the land.
